

## Karcher B 110 R

Battery powered scrubber drier

- Commercial ride-on scrubbing machine
- Up to 4 hours continuous run-time
- Cleans close to edges and walls
- Integrated battery charger
- DOSE detergent dosing system
- Easy operation and security key system

The Karcher B 110R compact ride-on scrubber dryer is designed for safe, quiet, energy-saving and efficient floor cleaning, with reduced water consumption and higher cleaning pressure, for cleaner, drier floors.

The B110R is equipped with numerous features, including:

- Side scrubbing deck for cleaning close to walls and under obstacles, reducing manual work
- Height adjustable seat for operator comfort
- Auto-fill feature and speed dependent water dosing which reduces the water supply when the machine is moving slowly, saving water and reducing the drying time
- Automatic tank rinsing, avoids water splashes and enables contact free disposal of dirt and water
- Robust squeegee – made from die cast aluminium with tear-resistant suction lips
- Anti-tipping sensor

This commercial scrubber dryer is ideal for use in industrial environments as well as retail stores, airports, stations, shopping centres, hotels etc. Karcher's unique KIK operator key system allows access rights to be set up to ensure safety, economic operation and operator confidence.

**The B110R – R75** features a very quiet roller brush head with integrated sweeping unit which enables pre-sweeping of coarse dirt

**The B110R – D75** features a disc brush head with 75 cm working width

### **Efficient and economical commercial floor scrubber dryer**

The B 110 R can be used in Eco mode, for reduced power consumption, longer run-time and very quiet operation.

## Technical data: Karcher B 110R

Features:	B110R – Roller Brush	B110R – Disc Brush
Suction width (mm)	950	950
Working width, brushes (mm)	650-750	650-750
