Features and Benefits

- Deep cleans carpets & scrubs floors
- No backache
- Uses less water
- Faster than tub style extractors

- A universal cleaning machine for shampooing carpets, scrubbing floors and cleaning upholstery
- In a single pass cleaning fluid is applied to the floor under pressure and dirt loosened by the rotating roller brush and is vacuumed up into the dirty water tank
- Gives a deep down clean all in one process, saving time and water
- Much easier to use and less work than conventional cleaning methods
- The extra water tank capacity of this model combined with its compactness and versatility makes the SE 1237 our most popular machine.
- Folding handle for easy transport and storage - easy to put in the boot of your car!
- Instructions for use are stuck on the side of the machine for quick reference
- Special roller brush for lifting carpet pile
- Overload protection for power brush motor
- Quick exchange from carpet to floor use (no tools required)
