**NO OBLIGATION  
DEMONSTRATION**

The SC2000 is one of the most versatile commercial Steam and Vacuum cleaners on the market today.

With 6 bar steam pressure and continuous steam output it has enough power to cope with the dirtiest surfaces and to sanitise to the highest standards. It's compact size and cost effectiveness makes it ideal for every type of business from contract cleaning through to food retailing and residential care.

For very dirty areas the SC2000D has Detergent Injection and is particularly good for use in greasy areas such as Kitchens

For extra Mobility the SC2000 is available with a handy trolley as an optional extra.

The SC2000 with Trolley

## The SC 2000

The SC 2000 utilizes the latest steam technology and uses very little water with no harsh detergents, so providing maximum standards of cleaning and hygiene with **Minimum Environmental Impact**

All our Steam Cleaners have **COPPER BOILERS** with **EXTERNAL HEATING ELEMENTS** which are not only **EXPLOSION PROOF** But means that in hard water areas they are **NOT AFFECTED BY LIME SCALE**

Even when used for 8 hours per day lime scale is not a problem as they all have a patent method of cleaning out the boiler which takes **Just 5 minutes a month**
